Instructions for Odd One Out

1 Set up 15 game markers in 3 rows like this.

2 Decide who will be Player 1 and who will be Player 2. Player 1 goes first.

3 Each time you take a turn, you get to remove some markers from one of the rows. You can take anywhere between 1 and all of the markers in a single row. You cannot take markers away from more than 1 row at a time.

4 Take turns back and forth, and record your moves on the record sheet. The player who takes the last marker(s) wins.

1st move: 3 from middle

2nd move: 7 from bottom

3rd move: 2 from top

4th move: 1 from middle

5th move: 1 from middle

6th move: 1 from top to win!
